

MADISON COUNTY FARMERS TO HOLD TWO BIG RALLIES

JACKSON, Tenn., April 22. (Sp.)—Two important mass meetings of Madison county farmers will be held in the Association of Commerce rooms Saturday at the call of the county council of agriculture. R. S. Maddox, of Nashville, state forester, will address the meeting. All persons interested in woodlands and reclamation of gully lands are urged to attend. A meeting of the county sheep growers will be held at 3 o'clock at the call of the marketing committee of the county council.

Forester Maddox is a recognized authority on all questions pertaining to the preservation of the forests and the reclamation of waste lands and his address will doubtless be of great interest to Madison county farmers. A large per cent of the lands in this county have been badly washed on account of rolling channels and the farmers for that reason are very poor agricultural resources. The latest methods of improving the lands and making them again productive will be explained by Forester Maddox.

The sheep growers' association of the county will arrange for co-operative sales of wool and lambs at the meeting Saturday afternoon, and discuss other propositions of interest to those raising sheep in this county. Since the passage of legislation in Tennessee protecting sheep from the ravages of dogs, the sheep industry has been steadily assuming larger proportions.

Almost simultaneously the holy see will institute a nunciature of the first class in Berlin. Monsignor Facelli will be appointed nuncio.

FRENCH WONDERING WHO WILL WORK MAY 1

PARIS, April 22.—Just who will work, and what service the public will get on May 1, when the labor leaders propose to have everything except the clock stopped, is still the main topic of discussion in all circles in Paris. The teachers have been instructed by the government to report for duty in all the schools at the customary hour. On the other hand the Vincennes race track authorities have decided to abandon the proposed race meeting for that day and a number of other sporting events also have been called off. At the present it seems certain that all means of transportation will cease on May day.

SHEEP AS MONEY

A man's fortune was once measured by the number of pecus, or sheep, he possessed.

Later, the Romans used the word pecunia, literally sheep, to designate wealth.

Still later, the English wrote concerning their pecuniary, or financial, condition.

And even now, Americans speak of the wealth of enjoyment found in the delicious lamb stew served at CHILDS.
